EXPERIENCE

SEATTLE UNIVERSITY

Early Career MBA Program Director

2020 +

Assistant Clinical Professor, Management

2006 +

Responsible for the administration of the Early Career MBA program and oversight of the cohort; including marketing, recruiting, admissions, student interface and support, and management of program. Teach organizational development, decision making, teamwork and leadership courses in the PMBA, OMBA and Early Career MBA programs. Develop curriculum and facilitate courses in an experiential format. University publications include 'EQ Primer' and an online EQ assessment.

CONSULTANT & LEADERSHIP COACH

Organizational Development

2002 +

Leadership coach and organizational development consulting. Assess organizational needs; create and analyze online assessments (360°s); facilitate experiential leadership development, team-building, and emotional intelligence trainings; and support ongoing leadership development through coaching.

CONSULTANT - TELECOMMUNICATIONS

1999

Provided consulting services for wireless carriers and CLECs; including financial analysis, market studies, and proposal preparation.

AT&T WIRELESS SERVICES

(FORMERLY MCCAW CELLULAR)

Marketing Project Manager

1996 to 1998

Provided marketing and project management expertise for the development, launch and operation of four major wireless markets in Midwest. Post launch developed and implemented customer base marketing and retention programs and provided project management expertise to executive team during company-wide reorganization.

Project Manager

International Development and Operations

1994 to 1996

Identified country specific opportunities, developed business cases, formed joint partnerships and prepared extensive proposals in response to RFPs for international wireless licenses.

Analyst/Accountant, External Affairs

1993 to 1994

Managed interconnect agreements and supported contract negotiations with long distance and local exchange carriers.

ERNST & YOUNG CONSULTING

Telecommunications Consultant

1991 to 1993

Provided consulting services for telecommunication companies, including financial analysis, regulatory reporting, and audit services.
